My 2 girls hv attended Schooling Society for almost a year and hv always enjoyed the classes. The course materials are rigorous. On their own accord, the teachers and principal frequently call me to update me on my children's progresses. When my girls miss class, the school calls or emails me within the day to ask about them. They would offer a replacement class within the week (till Sunday) or if I can't make it, they would extend their next class by half hour to go over the missed class materials. The classes are slightly pricey but thus far, it's considered reasonable given the small class sizes.

Dear Mrs Chew, Thank you for your comments. We appreciate your support and frank feedback. We will continue trying our best to give all parents a value-for-money service. We invested substantially to give the children an optimal and unique learning experience. We are delighted that they enjoy the naturally sunlit classrooms, the high tech Smartboards and the coloured booklets. Most importantly, we want them to feel that everyone at TSS cares for their well being.

我的孩子很喜欢在TSS上课，特别是上课时用的智能板，让她爱不释手。总体来说服务态度很好，地理位置很方便，最重要的是她的科学和华文老师都非常有耐心，我非常感激。

Our child is currently attending the lesson at TSS for one of the subjects. He has learned a lot under the coaching of the teacher and director. Kyker is always looking forward to attend the class every week as there is alot of engagement between the student and the teacher. He always share a lot with us how much he has achieved over the short time frame. The director is always there to support the weaker student by understanding their strength and weakness and give the necessary support to them whenever is required. She will speak to the parent to follow up on his student 's progress. We appreciate the care and concern they have given to my child during his learning journey at the center. Thank you.

Hello Mrs Cheng, both your boys are a pleasure to teach. We appreciate your trust in us and in making the effort to travel so far to come to TSS. Kyler is a wonderful student, always so keen to learn from us. We will certainly do our best to help stretch him so that he reaches his fullest potential. We are also very happy that Kaizer enjoyed his Chinese lessons with us.

Dear Mrs Yeo, Thank you for recommending friends and parents to us. We are very lucky to have such a supportive parent. We are extremely happy that your boys have done very well in their SA2 exams. They have been cooperative and attentive during their lessons and the results reflect that.

⋮

modern enrichment centre (extra classes) for kids who want extra help with English Math Science or Chinese. classrooms are equipped with modern "smart" boards. centre is conveniently located at sixth avenue and a short travel distance from several major schools along the bukit timah stretch. nearby amenities will keep parents occupied while waiting
